16.Troubleshooting

Q1.Why is the recorder not recording any voice,even when the operation indicator is on?

Make sure you have changed the "Record from" settings from "LIN IN" to "Microphone". To change

this setting, stop recording first In the Home menu page, select "Record Settings" - "Record from"- "Microphone", and then press "▶ǀǀ" button.

Q2.The Recorder is powered off automatically?

In stop mode, the recorder would automatically turn off in 1 minute without attempting an operation for approximately 1 minute. Please turn on the recorder again.

Q3.The recording is static, scratching and have unusual noises?

During recording, please try to keep away from noisy environment, and not to rub, scratch or cover the microphone. Please refer to tips for better recording on user manual for more detail.

Q4.The recorder could not play certain type of music files?

This Recorder could only play music files in MP3, WMA, FLAC, WAV or OGG format. Please be sure the music files you tried to play are in any of those 6 supported formats.

Q5.There is no sound from the Recorder's speaker while playing?

Please make sure there is no earphones plug in the earphone jack of the Recorder.

Press "Volume up" button to raise the volume.

Q6.The computer could not read the Recorder after it being connected?

Please try to connect the Recorder with other USB ports of your computer.

If can't, please try the USB cable to Micro USB of another computers.

Q7.Why can the music files not be played after being added to the recorder?

Make sure your music files are added to "MUSIC" folder.

Press and hold the "MODE" button to enter the music play mode.
